About the Report

This report provides a detailed analysis of the candidate's performance on different assessments. The tests for this job role were decided based on job analysis, O*Net taxonomy mapping and/or criterion validity studies. The candidate's responses to these tests help construct a profile that reflects her/his likely performance level and achievement potential in the job role

This report has the following sections:

The **Summary** section provides an overall snapshot of the candidate's performance. It includes a graphical representation of the test scores and the subsection scores.

The **Insights** section provides detailed feedback on the candidate's performance in each of the tests. The descriptive feedback includes the competency definitions, the topics covered in the test, and a note on the level of the candidate's performance.

The **Response** section captures the response provided by the candidate. This section includes only those tests that require a subjective input from the candidate and are scored based on artificial intelligence and machine learning.

The **Proctoring** section captures the output of the different proctoring features used during the test.

Score Interpretation

All the test scores are on a scale of 0-100. All the tests except personality and behavioural evaluation provide absolute scores. The personality and behavioural tests provide a norm-referenced score and hence, are percentile scores. Throughout the report, the colour codes used are as follows:

● $70 \leq \text{Score} < 100$

● $30 \leq \text{Score} < 70$

● $0 \leq \text{Score} < 30$

Now a days childrens are using the internet and television instead of studying the books. So the children are habited to moblie and television even the parents are trying to feed the children they are going to eat the food until they parents are giving the mobile to them so the internet so used for two purposes one is research for the study and another one is for wasteing the time in the social media and the main cause is that the childrens are not going to the school they want to stay at the home and wasteing the time in the social media. Instead of giving mobile for the children we have to give a moral speeches to them like some good books and they are used to habit to read the books in the free time. Max number of childrens are playing games in the mobile when they get the free time then they not able to get even a little knowledge so we have to say that every children are focus on the books in the lesar time dont waste the time in spending for playing online games and other unimportant time utilize the time properly when they get the free to they have to open some good books. We have a quite good books are good friend. Every student have to make a friendship with some good friends beacuse the people surrounding what they are doing we also intrested to do the same thing so we have to make a good friendship with other even you find that your friend is not in good health on acitivites then you have to make some distance between both of u.
